EDUCATION

Rajalakshmi Institute of Technology

Chennai, India

Bachelor of Engineering in Computer Science and Engineering

2023 – Present

– CGPA: 8.58

Dhanish Matric Higher Secondary School

Chennai, India

Higher Secondary Examination (HSC) & SSLC Examination

2020 – 2022

– HSC (12th): 86% — SSLC (10th): 92.8%

EXPERIENCE

Agnikul Cosmos Private Limited

Oct 2025 – Apr 2026

Automation Intern – AIML Developer

IIT Madras Research Park

- Built and deployed on-premise LLM application using Ollama models, applied LoRA adaptations, and optimized inference workflows for secure enterprise automation use cases
- Designed and enhanced Retrieval-Augmented Generation (RAG) pipelines using embeddings and vector search, implementing semantic routing and tool-calling to ensure accurate, context-aware ERP query resolution with reduced hallucination

PROJECTS

ProofLock | AI, Zero-Knowledge Proofs, Biometrics

April 2026

- Built a privacy-preserving digital identity platform using AI-based fraud detection and Zero-Knowledge Proofs (ZKP)
- Implemented verifiable credentials, biometric verification, and selective identity disclosure for secure authentication

EasyG - Heart Disease Risk Checker | React, FastAPI, Node.js, MongoDB

February 2026

- Developed an AI-powered healthcare system for real-time ECG monitoring and heart risk prediction
- Built ML pipelines with ECG preprocessing, explainable risk analysis, and an interactive dashboard

ArtiCraft | React, FastAPI, Scikit-learn, MySQL

December 2025

- Created an AI agent generation platform that converts datasets into deployable AI solutions
- Implemented automated ML workflows, API deployment, JWT authentication, and interactive frontend modules

COPYRIGHT

Software Framework for Automated Solar Sunspot Identification and Characterization

Registered Apr 2026

- Copyright registered under the Government of India (Application No: SW-3716/2026-CO)
- Developed as part of academic research in computer vision and solar image analysis

TECHNICAL SKILLS

Languages: Python, Java, SQL

Machine Learning & AI: PyTorch, LoRA Fine-Tuning, Retrieval-Augmented Generation (RAG), Semantic Routing, Tool Calling, Embedding Models, Vector Search

Frameworks : FastAPI, React, Node.js, REST APIs, MongoDB

Tools & Platforms: Git, VS Code, Docker, MongoDB, MySQL, Jupyter Notebook, Google Colab, Power BI

CERTIFICATIONS

Data Analytics Job Simulation

Deloitte (Forage), 2025

Intermediate to Advanced Python with OOP

Udemy, 2025

LEADERSHIP

Vice President

2024 – 2025

WiSTEM Club, Rajalakshmi Institute of Technology

Chennai, India

- Led technical workshops, seminars, and hackathons focused on student skill development
- Coordinated initiatives combining technology with social impact
